## A Peek at our Week

30<sup>th</sup> November 2018

### Our Learning This Week

This week we have been busy planning the toys that we are going to be making as a Chanukah gift. Everyone has been very excited to come up with a concept and design and we are very much looking forward to seeing the outcome next week. Thank you all, for send in 'junk' for modelling in order to have made this activity possible for them. Both classes have been very busy preparing for Chanukah, helping to create interactive Chanukah doors in their classroom filled with the children's wonderful work. They have been learning lots of songs and we are really looking forward to continuing the celebrations next week.

### Literacy

This week is our last week with Knuffle Bunny. The children have adored reading this story and this has shown through the outcome of their wonderful work. They have been writing descriptions of their favourite toys this week thinking about not only the characters outside appearance but also their personality. All the Kitta Aleph children have been using the skills that have been taught this half term to add incredible detail to their work with similes and conjunctions.

### Maths

This week the children have been working hard on addition and subtraction. We reviewed all the different methods that could be used to solve equations and the children explored these to find the one that they preferred. They used their favourite methods to solve equations and have now started working on word problems looking for the key information to create equations to be solved. Try some worded problems at home using the language; First I have... Then...What do I have now?

### Kitta Aleph Notices

Thank you for your continued support over this year. We are looking forward to seeing many of you next week for Chanukah celebrations.
